The BDD-711 is a regular fit with a high rise/dropped crotch, roomy thighs and tapered legs. This is the most ideal fit for you if you're looking for a bit more room in the top block. The taper from the knee down allows the silhouette to maintain a slimmer bottom hem for a contemporary casual look. When sized down, the BDD-711 can be worn as vintage cut with a high rise; and when sized up, it can be worn relaxed on the hips with a dropped crotch.

The 'N' in its name stands for 'new' because it's an updated version of the previously discontinued BDD-710, which has been part of our first collection back in 2013. Originally developed as a vintage cut, we took the 710 base and tweaked it towards a modern update of this cut. BDD-710N is considered relaxed, has a long back rise, and the legs slightly taper to an easy hem opening. It comes close to the silhouette of the European made B-04 RELAXED.
